**U.S. PATENT DOCUMENTS**

| * |   | Document Number<br>Country Code-Number-Kind Code | Date<br>MM-YYYY | Name            | Classification |
|---|---|--------------------------------------------------|-----------------|-----------------|----------------|
|   | A | US-5,771,224                                     | 06-1998         | Seki et al.     | 370/206        |
|   | B | US-2003/0039322 A1                               | 02-2003         | Murakami et al. | 375/329        |
|   | C | US-                                              |                 |                 |                |
|   | D | US-                                              |                 |                 |                |
|   | E | US-                                              |                 |                 |                |
|   | F | US-                                              |                 |                 |                |
|   | G | US-                                              |                 |                 |                |
|   | H | US-                                              |                 |                 |                |
|   | I | US-                                              |                 |                 |                |
|   | J | US-                                              |                 |                 |                |
|   | K | US-                                              |                 |                 |                |
|   | L | US-                                              |                 |                 |                |
|   | M | US-                                              |                 |                 |                |

**FOREIGN PATENT DOCUMENTS**

| * |   | Document Number<br>Country Code-Number-Kind Code | Date<br>MM-YYYY | Country | Name | Classification |
|---|---|--------------------------------------------------|-----------------|---------|------|----------------|
|   | N |                                                  |                 |         |      |                |
|   | O |                                                  |                 |         |      |                |
|   | P |                                                  |                 |         |      |                |
|   | Q |                                                  |                 |         |      |                |
|   | R |                                                  |                 |         |      |                |
|   | S |                                                  |                 |         |      |                |
|   | T |                                                  |                 |         |      |                |

**NON-PATENT DOCUMENTS**

| * |   | Include as applicable: Author, Title Date, Publisher, Edition or Volume, Pertinent Pages)                                                                                                                                                                |
|---|---|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|   | U | DVB Document A037 ("Implementation Guideline For DVB-T Transmission Aspects" Digital Video Broadcasting, March 1998,                                                                                                                                     |
|   | V | Horvath et al. ("A Novel, High-Speed, Reconfigurable Demapper-Symbol Deinterleaver Architecture For DVB-T", Circuits and Systems, 1999. ISCAS '99. Proceedings of the 1999 IEEE International Symposium on , Volume: 4 , Jul 1999, pages IV-382:IV-385). |
|   | W |                                                                                                                                                                                                                                                          |
|   | X |                                                                                                                                                                                                                                                          |
